

To: George Carson
Carson Marketing, Inc

Dear George,

I would like to thank you for arranging Ventura Ranch KOA to be part of the KTLA Gayle Anderson's broadcast of the safety of camping in a Covid-19 world. Your professional relationships and established reputation all made this come together with Gayle.

Our phones at the campground after the broadcast were constantly ringing for more information after each broadcast.

George, you personally made it possible for Ventura Ranch KOA to be included in the broadcast. I appreciated your coaching and insight of how to prepare for the interview with Gayle. You informed me not only on what to expect, but you were 100% right about the strength of the broadcast would have on my business.

To date, we are still receiving calls and receiving messages from the viewers how much they enjoyed seeing the broadcast.

I am looking forward to your visit to the campground in your RV to enjoy the different venues of camping available to the general public. Most importantly, experience the most safe form of leisure travel currently available in the United States; and that is traveling in one's Recreational Vehicle.

Most Respectfully,

Scott
